

## WIL PROJECT CASE STUDY ORIENTATION

**WEEK 12**

### Applicable VLO's for This Week's Case Study

- VLO#5: Integrate software applications for teams to collaborate and control the outcomes of a project.

### This Week's Detailed Case Study Information

You are still working for Enigma Software Solution (ESS) but your role has changed as a "junior system analyst". You are responsible to use mobile applications to facilitate project management and project collaboration. Review the following collaboration tools and then proceed with the required deliverable(s).

- Slack (<https://slack.com/>)
- Trello (<https://trello.com/>)

**Task1:** Sign up on Slack and add your group mates as members and start communicating about the recent Architect Connect app that you have created. On Slack, please make sure you have created at least the following Channels:

@programming  
@database team  
@testing

**Task2:** Sign up on Trello and create a board and share it with all the team members.

Then on Trello, create a board and add the following tasks in the board. If you remember, these are the same tasks that you have worked on when you were developing features for Food Connect.

- 1) Create SRS document for Food Connect
- 2) Create Main page and Registration Page for Food Connect
- 3) Create Profile Page for Architect Connect
- 4) Create Database for the web application For Food Connect
- 5) Create Registration Function for Food Connect
- 6) Create Login Function for Architect Connect

**Task3:** Integrate Slack and Trello (based on the following guideline) so that every time you add a new card on Trello, an update is sent to Slack.

Guideline for Integration between Slack and Trello:

<https://trello.com/platforms/slack>

### WIL PROJECT CASE STUDY ORIENTATION

WEEK 12

#### Deliverables, Format and Marking Scheme for This Week's Case Study

##### Deliverables

Create a PowerPoint presentation with 5 slides

- 1) Slide 1 and 2 and 3: Each page one screenshot showing your communication for each team member
- 2) Slide 4: Two screenshots of Trello and the board that you have created including tasks and
- 3) Slide 5: One screenshot of Trello and Slack Integration

The "Presentation" will be evaluated based on the following:

- Presentation (in PowerPoint): 5%
